- Visual storytelling & content creation
- Social media video content (Reels, TikTok, Shorts)

PROFILE

A versatile and solutions-driven IT Support Officer with a strong background in computer engineering and hands-on experience in technical support, system troubleshooting, and user support. Skilled in maintaining computer systems, diagnosing hardware and software issues, and ensuring smooth IT operations in fast-paced environments.

Beyond IT support, I bring a creative and technical edge as a cinematographer and frontend web developer, combining storytelling with technology to deliver engaging digital experiences. Proficient in modern web technologies, video production, and content creation, with a deep understanding of current digital trends.

As an AI Prompt Engineer, I leverage emerging AI tools to optimize workflows, generate high-quality content, and enhance productivity across various domains. My experience as a computer operator further strengthens my ability to manage data, systems, and administrative tasks efficiently.

I am highly adaptable, detail-oriented, and capable of working independently or within a team, with a strong commitment to problem-solving, innovation, and continuous learning.

WORK EXPERIENCE
